

Marygrace McGrath

Tony Gasbarro

Tammy Siers

Charlotte Young

Tyler Bolling

Christine Cheng

Maria Storbank

As the days get longer and the sun shines brighter, we are excited to launch this month's Employee Spotlight, Kick-Off to Summer: Favorite Vacation Places. Each of these outstanding team members not only excel in their roles but also embody the spirit of summer – vibrant, energetic, and full of life. Please take a moment to explore how each of them spends summer to the fullest!

### **Charlotte Young**

- Role: Customer Service Specialist
- Favorite Vacation Place: Jamaica, Charlotte was able to swim with dolphins and saw her first star fish!
- Notable Projects in 2024: Streamlining communication between customer service at multiple locations to achieve more effective business operations and overall customer satisfaction.

### **Tony Gasbarro**

- Role: Eastern Regional Manager, Americhem Engineered Compounds
- Favorite Vacation Place: Mountains, mountains, mountains! Last year, Tony and his family hiked the 18-mile long Presidential Traverse which took over 18 hours to complete!
- Notable Projects in 2024: By regaining business lost in 2023 with new approaches and better communication, Tony has been able to push his "Team East" team in a positive direction forward in 2024.

### **Tammy Siers**

- Role: Accounting Specialist
- Favorite Vacation Place: Tammy loves to spend time in Michigan on the lake where she has a lot of family. Having that time to laugh, reminisce, and just relax with her family never disappoints!
- Notable Projects in 2024: Tammy has been involved in a few projects, but notable ones include creation of workflow practices, utilizing Project Tracker to manage new and existing vendors, and recently having a hand in the release of Americhem's new employee recognition platform.

### **Marygrace McGrath**

- Role: Customer Service Lead
- Favorite Vacation Place: The Outer Banks; Marygrace loves how serene and tranquil the beaches and atmosphere are. This gives her a feeling of peace and rejuvenation – something that she hopes to share with her son next year.
- Notable Projects in 2024: Marygrace played a notable role in the implementation of Salesforce. Countless hours were spent on collaboration and problem solving in-order for Americhem to launch a system that fits our unique needs. Marygrace also loves to live by “Aspire to Inspire,” this simple mantra helps her uplift and empower personally and professionally.

### **Tyler Bolling**

- Role: Asset Reliability Specialist
- Favorite Vacation Place: Nags Head Beach has always been a great place to fish, spend time with my family, and enjoy the sun!
- Notable Projects in 2024: Tyler brings a wealth of experience with him from his experience in the National Guard. More recently, he has been focused on driving progress at Americhem’s Liberty, North Carolina facility, ensuring operational efficiency and effectiveness. Tyler’s can-do attitude and dedication allow him to help where he can, ensuring a safe and functional environment!

### **Christine Cheng**

- Role: Sr. Manufacturing Assistant
- Favorite Vacation Place: The Yunnan province has been a place that Christine has felt a great appreciation for. The natural scenery, slow-paced lifestyle, and healing effects are something that she truly values. In particular, the Jade Dragon Snow Mountain is something that is truly breathtaking for Christine.
- Notable Projects in 2024: Christine has been a leader in reducing production costs and enhancing production efficiency for Americhem Suzhou, China. She also focuses on tracking daily production related data to see where improvements can be made.

### **Maria Storbank**

- Role: Product Development
- Favorite Vacation Place: In her former career as a nurse, Maria has had a lot of travel experiences that include Asia, most of Europe, and several states in the United States. However, she finds the most peace on islands being able to travel by campervan to see some of the most beautiful natural surroundings.
- Notable Projects in 2024: Specializing in fiber development, Maria’s primary projects include research and development for new fibers, testing, and streamlining how the fiber lab is structured to enhance development time.

2000 Americhem Way | Cuyahoga Falls, OH 44221 | **p:** 330.929.4213 | **f:** 330.929.4144

As we wrap up this month's spotlight, we want to extend a huge thank you to everyone for sharing their story and summer favorites with us. Their enthusiasm and dedication shine as brightly as the summer sun, making Americhem a fantastic place to work. From all Americhem, we hope you enjoy the sunshine!
